Column Name	DataType	Constraints	Table Name	Table Type	Comments			
firstname	string		registration	Master	mandatory			
lastname	string		registration	Master	mandatory			
email	string		registration	Master	mandatory			
bio	string		registration	Master	optional			
fb_link	string		registration	Master	optional			
tw_link	string		registration	Master	optional			
g_link	string		registration	Master	optional			
password	string		registration	Master	mandatory			
phone	integer		registration	Master	optional			
id	string	primary key	common	Both	uuid			
created_on	timestamp		common	Both	current date			
created_by	string		common	Both	user name or ip address			
modified_on	timestamp		common	Both	current date/date on which it is modified			
modified_by	string		common	Both	user name or ip address			
name	string		course_category	Master	mandatory			
title	string		course_category	Master	mandatory			
photo	string		course_category	Master	mandatory. In case of no image show the default one.			
type	string		course_category	Master	parent or child			
code	string		coupon	Master	mandatory			
discount_per	decimal		coupon	Master	mandatory			
validity	timestamp		coupon	Master	mandatory			
steps	string		course_workflow	Master	mandatory. it will be basic, requirements, pricing, media and seo			
rank	integer		course_workflow	Master	mandatory			
name	string		course_channel	Master	mandatory			
level	string		course_level	Master	mandatory			
steps	string	foreign key	course	Master	course_workflow			
title	string		course	Master	mandatory			
short_description	string		course	Master	mandatory			
description	string		course	Master	mandatory			
category	string	foreign key	course	Master	mandatory. course_category			
level	string	foreign key	course	Master	mandatory. course_level			
is_featured	boolean		course	Master	default false			
requirements	string		course	Master	mandatory			
price	decimal		course	Master	mandatory			
discount	decimal		course	Master	mandatory			
is_free	boolean		course	Master	default false			
enable_discount	boolean		course	Master	default false			
provider	string	foreign key	course	Master	mandatory. course_channel			
video_url	string		course	Master	mandatory			
thumbnail	string		course	Master	mandatory			
seo_title	string		course	Master	optional			
seo_description	string		course	Master	optional			
subscription_id	string	uuid	subscription	Master	mandatory			
plan	string		subscription	Master	mandatory			
pricing	string		subscription	Master	mandatory			

description	string		subscription	Master	mandatory			
validity	string		subscription	Master	mandatory			
gateway_name	string		payment_gateway	Master	mandatory			
gateway_endpoint	string		payment_gateway	Master	mandatory. encrypted			
gateway_callback_url	string		payment_gateway	Master	mandatory. encrypted			
gateway_failover_url	string		payment_gateway	Master	mandatory. encrypted			
license_cost	integer		payment_gateway	Master	mandatory. encrypted			
gateway_credentials	string		payment_gateway	Master	mandatory. encrypted			
gateway_id	string	foreign key	gateway_failover_workflow	Master	mandatory. payment_gateway			
rank	integer		gateway_failover_workflow	Master	mandatory			
max_attempt	integer		gateway_failover_workflow	Master	mandatory
