HTML template page : home-3.html

Home Page

It will contain search, top rated courses, categories, how it works, featured courses, our student reviews, latest news and articles, and contact us.
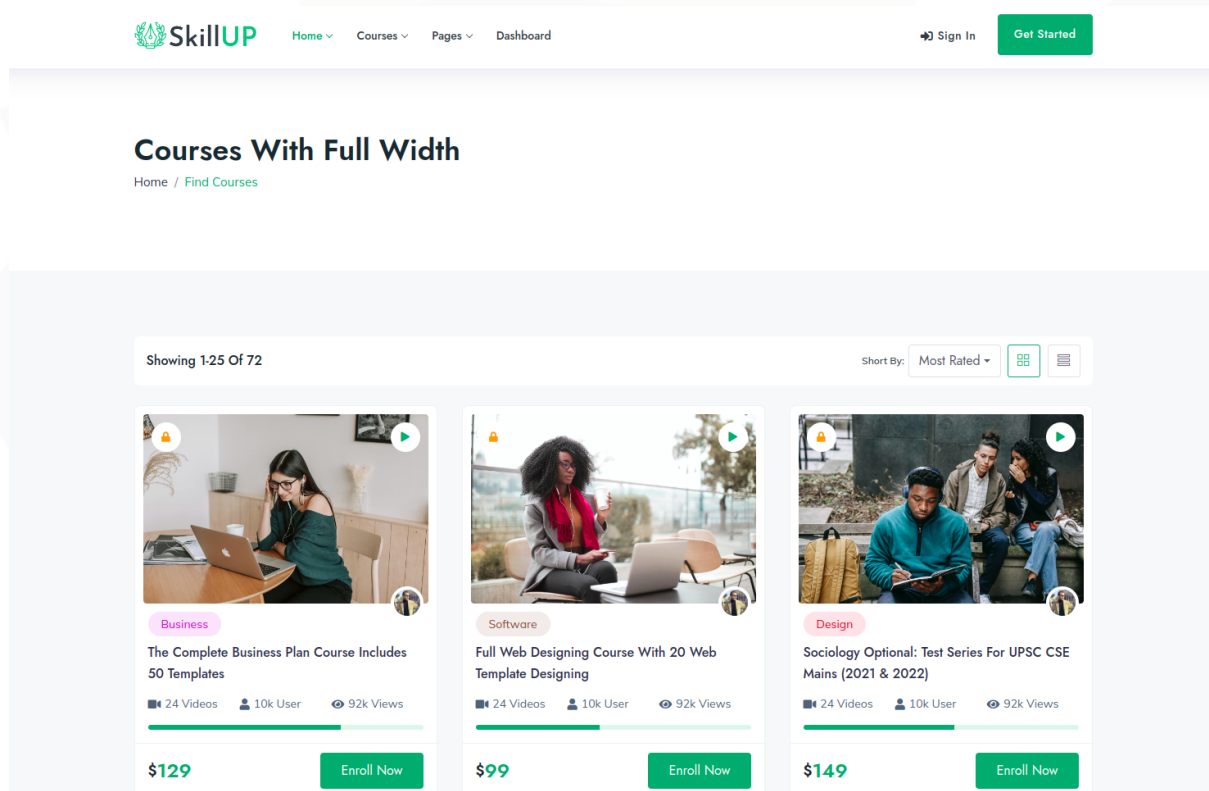

Search

Learners can search their interested courses in this section. When learners enter their search text it will go to the API and get the searched courses. In case of no result found, default featured courses should be listed.

Search Details

Listing of courses comes from the search criteria.

HTML template page : grid-layout-full-3.html

Top Rated Courses

It will contain the top ranking courses. When clicking on these courses it will be landed at the Enrol page (see in the later section).

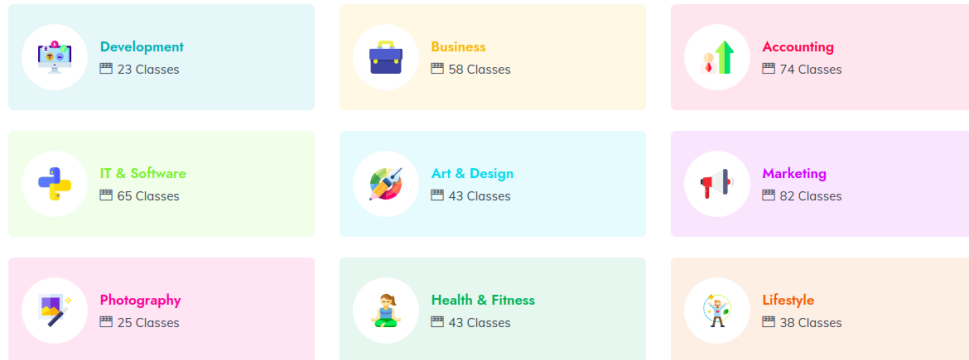

Categories

It should be like Big Data, Data Engineering, Data Science, Data Cleaning, Data Analysis, Batch Processing, Streaming, AWS Cloud, GCP Cloud, Kaggle Projects etc.
